1.4.1.	Patch	June 2017	Grzegorz Kurek	Defect Fixes

Defect Fixes

2

2.1 Summary of Defect Fixes

The following DCCI defect has been fixed for this release:

DCCI sends Binary Security Token to SE for non MC airlines

iCRM/Siebel SR#: N/A	Versioning Tool#: CSSDC-482
Title: DCCI sends a Binary Security Token to Service Engine for non-Mobile Concierge (MC) airlines	
Description: DCCI uses the Mobile Concierge (MC) application ATH token to call downline services. The token permanently remains in the memory and is used for services called from other clients.	
Resolution: A token is no longer stored in the memory. Fixed and implemented	
Programs/Modules Affected: JSON -T1	
Other Solutions/Systems Affected: Airlines
